§ 390.42 What are the responsibilities of drivers and motor carriers operating intermodal equipment?

(a) Before operating intermodal equipment over the road, the driver accepting the equipment must inspect the equipment components listed in § 392.7(b) of this subchapter and be satisfied they are in good working order.

(b) A driver or motor carrier transporting intermodal equipment must report to the intermodal equipment provider, or its designated agent, any known damage, defects, or deficiencies in the intermodal equipment at the time the equipment is returned to the provider or the provider's designated agent. The report must include, at a minimum, the items in § 396.11(b)(2) of this chapter.

[73 FR 76822, Dec. 17, 2008, as amended at 77 FR 34852, June 12, 2012; 77 FR 59828, Oct. 1, 2012]

§ 390.44 What are the procedures to correct the safety record of a motor carrier or an intermodal equipment provider?

(a) *An intermodal equipment provider or its agent* may electronically file questions or concerns at <http://dataqs.fmcsa.dot.gov> about Federal and State data that reference the provider.

This includes safety violations alleging that the components, parts, or accessories of intermodal chassis or trailers listed in § 392.7(b) of this chapter were not in good working order when inspected at roadside. An intermodal equipment provider should not be held responsible for such violations because a motor carrier indicated pursuant to § 392.7(b) that these components, parts, or accessories had no safety defects at the time of the pre-trip inspection.

(b) *A motor carrier or its agent* may electronically file questions or concerns at <http://dataqs.fmcsa.dot.gov> about Federal and State data that reference the motor carrier. This includes safety violations alleging that any components, parts, or accessories of intermodal chassis or trailers, except those listed in § 392.7(b) of this chapter, were not in good working order when inspected at roadside. Such violations will not be used by FMCSA in making a safety fitness determination of a motor carrier (unless there is evidence that the driver or motor carrier caused or substantially contributed to the violations) because the driver could not readily detect these violations during a pre-trip inspection performed in accordance with § 392.7(b).

(c) *An intermodal equipment provider, or its agent*, may request FMCSA to investigate a motor carrier believed to be in noncompliance with responsibilities under 49 U.S.C. 31151 or the implementing regulations in this subchapter regarding interchange of intermodal equipment by contacting the appropriate FMCSA Field Office.

(d) *A motor carrier or its agent* may request FMCSA to investigate an intermodal equipment provider believed to be in noncompliance with responsibilities under 49 U.S.C. 31151 or the implementing regulations in this subchapter regarding interchange of intermodal equipment by contacting the appropriate FMCSA Field Office.

§ 390.46 Are State and local laws and regulations on the inspection, repair, and maintenance of intermodal equipment preempted by the Federal Motor Carrier Safety Regulations?

(a) *General*. As provided by 49 U.S.C. 31151(d), a law, regulation, order, or
